Efforts to break the annual budget Ruleigh, N. C., February E.-The House received to-day through Chairman Williams, by inserting an additional item of \$32,of the Finance Committee, the new revenue bill, which is to be taken up in committee of the whole next Thursday, and considered from day to day until it passes final reading and is zent over to the Senate for still further adjustment and enactment. The bill begins with schedule AA, thing inheritance, income, franchise and privilege taxes generally. The reason schedule AA, the ad valorem State tax rate, is left off is understood to be that the committee plan for State finances includes the creation of a State Tax Commission and complete reassessment of real and personal property this summer, the results to be reported to the special session of the Legislature next fail, when the ad valorem State tax rate will be fixed in the light of the results of the new assessment. The House discussed at considerable length the Bryant jury bill from the Senate, and then suspending this when the Senate, and then suspending this when the Senate, and then suspending this when the hour arrived for the Joint session for the election of trustees of the State University.

In the Senate, Hobgood introduced another legalized primary bill. It defeated the Justice House bill again, except that it excepts county officers from primary nominations. Even this was included in the committee substitute bill that the House killed. The Senate passed many public local bills. The joint Committee on Agriculture determined this afternoon by a vote of seven to three to report favorably the bill to allow thirty instead of twenty-two pounds for baging and ties on cotton baies, with J. M. Templeton, of the Farmers' Alliance; Senator McLean, Representative Weatherspoon and others in favor of the bill. The opponents of the bill assured the committee that if the bill was passed it would be inoperative and cause discrimination against North Carolina cotton; that the present scale of tare allowances were worked wide, and manufacturers and exporters was appeared to horrore physical connection of the Corporation Commission by eliminating the section to empower 000 for ornamental lights in the downof the Finance Committee, the new revenue bill, which is to be taken up in committee of town business section failed in the Common Council last night, the ap-propriation ordinance being adopted after several hours of debate exactly as it came from the Committee on Fi-nance. President William H. Adams, of the Board of Aldermen, issued at once a call for a joint session of the City Council for Friday night at 8 o'clock to elect school trustees and for the Board of Aldermen for Friday night at 8:30 o'clock to act on the budget, which if concurred in will be in the hands of the Mayor on Saturday, and the appropriations for public improve ments will be available by the first of next week.

Some Items Criticized.

The appropriation ordinance was read by items last night, and while a num-ber of questions were asked of Sub-Chairman Fuller, of the Finance Committee, who was in charge of the paper on the floor, no serious objection was raised to any item, and there were no amendments save those of a verbal character to correct errors in the titles character to correct errors in the titles of departments made in copying. There was passing comment on the item of \$5,000 for expenses and automobile for the Administrative Board, for the ad-dition of \$11,616 to the Fire Department payroll to make sixteen of the call men station men, and on the in-clusion of police telegraph linemen in the Police Department payrool, but the items were allowed to stand. In connection with the street item, which shows a reduction from the total pro-vided for last year, Mr. Mills asked why no appropriation had been made for improvement of Shockoe Creek.

Plaus for Shockoe Creek.
Mr. Fuller explained that the Administrative Board had advised that small sums could not be used to advantage. The Finance Committee, he said, was fully aware of the great importance of making a permanent improvement of the entire creek hed, and expected at some early date to make a recommendation covering this and other matters as soon as the properties. er matters as soon as the proper finan-cial arrangements could be effected. On conclusion of the reading of the paper carrying a total of \$3,477,035.95, the exact amount of the estimated re-celpts of the city for the coming year, Mills moved to amend by insert-

ing an additional item to place orna-mental street lights on Fifth, Sixth and Ninth Streets, from Broad to Main, on Seventh and Eighth, from Broad to Byrl; on Grace and Franklin, from Fifth to Ninth, and on Main, from Fifth to Eighteenth; with ornamental lights at Bank Street entrance to Capitol Square

Upholds Constitutionality of Employers' Liability Law.

Trenton, N. J., February 25.—The Supreme Court to-day upheld the constitutionality of the employers' liability law of 1911, one of the four important reform measures passed during the first year of Governor Wilson's administration.
